About the Liaison Advisory Committee on Transfer Students (LACTS)

Iowa can be proud of its long-standing history of voluntary articulation efforts between public institutions of higher education. Soon after the creation of the Iowa community colleges in the mid to late 1960s, discussions of transfer issues began with the Regent Universities. One of the most successful committees to come out of these early meetings was the Liaison Advisory Committee on Transfer Students (LACTS). First organized in 1972 and confirmed as an on-going advisory committee in 1973, LACTS continues to have an active role in facilitating transfer.

LACTS has six members, with three representatives from the community colleges and a representative from each of the Regent Universities. The community college representatives are appointed by and report to the Iowa Association of Community College Presidents. The Regent representatives are appointed by and report to the Regents Committee on Educational Relations (RCER). While LACTS is an advisory group with no official policy-making authority, their recommendations are highly respected and often implemented.

LACTS was originally created in response to transcript and grading symbol issues, but soon became involved in all types of transfer topics. Over the years, the committee has been influential in the development of several areas of initial agreement between the community colleges and the Regent Universities, including the following:

- common grading symbols and definitions agreement;
- career and technical credit agreement;
- international student academic credential evaluation agreement;
- College Level Examination Program (CLEP) agreement;
- electronics/electronics-based technology agreement;
- military credit agreement; and
- the Associate of Arts articulation agreement.

Five of the seven agreements have undergone one or more revisions since they were implemented (e.g., the College-Level Examination Program (CLEP) agreement was expanded to include Advanced Placement Program (APP) and institutional examinations).

The LACTS committee meets several times a year and hosts an annual statewide articulation meeting each spring at which time all written articulation agreements are reviewed and other articulation issues are discussed. Representatives of the Iowa community college Arts and Sciences Administrators and Chief Student Services Administrators and Iowa Regent University Deans of Liberal Arts and Directors of Admissions participate. Staff from the Department of Education are also present.

The LACTS committee exists to help make the student transition among Iowa public institutions of higher education as smooth and seamless as possible. LACTS welcomes and encourages individuals and/or institutions to bring articulation issues or concerns to their attention. They may do so by contacting any member of the committee. LACTS archives are housed in the Office of Admissions at the University of Northern Iowa.
